

## 2.5" to 3.5" SATA SSD/HDD Converter

- Design to mimic the dimensions of a 3.5" HDD to fit in any application
- Fits in any 3.5" enclosure or drive bay
- Support standard 2.5" SSD/HDD SATA drive
- Support 9.5mm and 12.5mm SSD/HDD
- Aluminum and Steel Alloy for good heat dissipation
- Patented NSS Connector for 50,000 cycles of hot swap
- Pass thru for the fastest SATA III speed (6Gbps)
- Screw-less and tool-less for easy swap of drive
- Support any speed the SATA drive (SATA I/II/III)
- Hot-Swappable ready, No Drivers Needed (NDN) for any OS
- Status LED for clear indication of power/activity

### • Introduction:

The ability to convert a 2.5" SSD/HDD to 3.5" HDD form factor is now so much easier with the introduction of this latest addition to the Storage Accessories, the new 2.5" to 3.5" SATA SSD/HDD Converter, this Converter transforms any 2.5" SSD or HDD into a 3.5" Standard Hard Drive form factor. Made with Aluminum and Steel Alloy casing for heat dissipation, this versatile converter emulates the same Standard 3.5" HDD size, SATA connection and pass thru design for the fastest 6Gbps speed possible for any 2.5" SSD/HDD place into the converter. In addition the Patent NSS connector on the converter is design to support many cycles of hot swap (50,000), thus keeping the hard drive safe and in a durable environment. This screw-less and tool-less designed converter makes it easy to add and change drive on this 2.5" to 3.5" SATA SSD/HDD Converter.

### • Specifications:

Model:	MRK-235ST
Device Support:	2.5" SATA III/II/I SSD/HDD (9.5mm & 12.5mm)
Device Size:	3.5" SATA drive form factor
Internal Interface:	Standard SATA
External Interface:	Standard SATA
HDD Capacity:	Any size
Material:	Aluminum, Steel Alloy and ABS
Dimension:	141 x 101.6 x 25.5 mm
Weight:	150g

### • System Requirement

- > Any OS
- > Any standard 2.5" SSD/HDD (9.5mm & 12.5mm)

### • Package Contents

- 2.5" to 3.5" SATA SSD/HDD Converter
- Mounting screws
- Quick installation Guide
